ADVANCED CLINICAL SPA

BY  MT. PLEASANT
DERMATOLOGY

PRE-TREATMENT

- Shave any excess hair.
- Hydrate well the day prior to and the day of your
- appointment.
- Arrive to your appointment without any lotions or tanning creams.
- Notify the office for updates any medical, health history or medications since your last appointment.
- Notify the office if you have a pacemaker or defibrillator.

POST-TREATMENT

- Tenderness, redness and swelling may occur and resolve with 72 hours.
- Notify the office if any of the following occur...
 - Blisters, crusts, or skin burns develop.
 - Tenderness, redness or swelling persists longer than 72 hours.
 - Nodules or lumps in the treatment area occur. (These may develop 72 hours post-treatment.)
